

VIDEO TELEPHONE

Product Model: JWAT925

Defend Grade: IP54

Communication System: IP

Material: Stainless Steel

Color: Stainless Steel (Optional)

Technical Parameters

Voltage	DC12V/POE
Standby Work Current	≤1MA
Pixel	100W
Corrosion Grade	WF1
Ambient Temperature	-30~+60℃
Atmospheric Pressure	80~110KPa
Relative Humidity	≤95%
Lead Hole	1-Ø10
Installation	Wall mount

Application

The Handsfree Telephone usually used in elevators, pharmaceutical factories, building intercoms and other environments with special requirements.

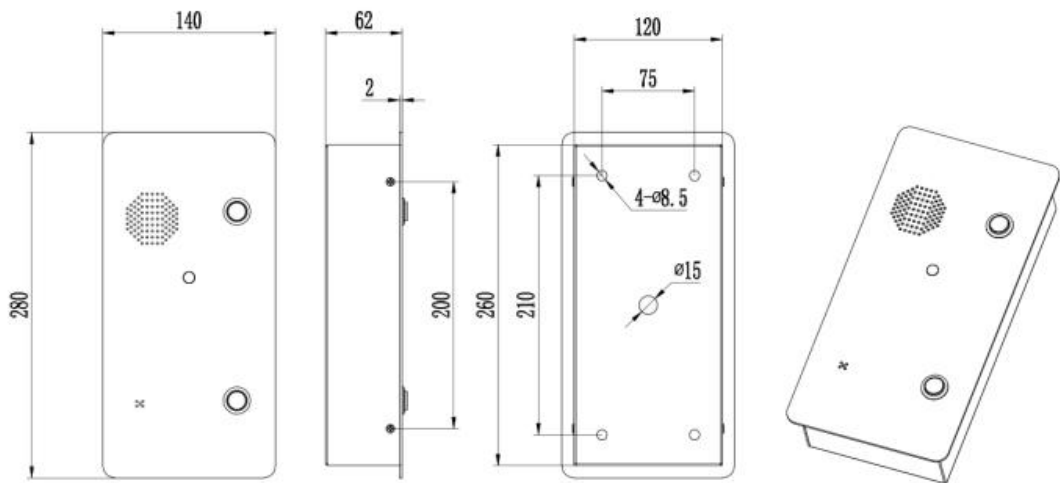

Features

1. Connect Ethernet, across network segments and across routes.
2. Built-in HD camera, clear video images, and backlight compensation.
3. Robust housing, constructed of 304 stainless steel material.
4. Hands-free Operation.
5. Vandal resistant stainless steel keypad.
6. Remote configuration and management via web page.
7. Self-made telephone spare part available.
8. CE, FCC, RoHS, ISO9001 compliant.

Product Dimensions

Package

Carton size: 440*320*270

Packaging materials: Pearl cotton,

Carton Net weight: 2KG

Gross weight: 2.1KG

Service and Support

Under normal use, non-human damage, free **THREE YEAR WARRANTY**.
